

justtrack Subprocessor List

Version 1.0 — 28 July, 2026

justtrack GmbH engages the following subprocessors to process personal data on behalf of its customers in connection with the justtrack platform. This list forms part of the justtrack Data Processing Agreement (DPA). Changes to this list are notified in accordance with Clause 6 of the DPA. To receive email notifications of changes, subscribe here: <https://justtrack.io/contact/>

Subprocessors (processing Customer Personal Data)

Subprocessor	Purpose	Location / Hosting Region	Transfer Mechanism
Amazon Web Services EMEA SARL (AWS)	Cloud infrastructure and hosting of the justtrack platform (self-managed Kubernetes); upon activation of AI features: managed AI model inference via AWS Bedrock	Luxembourg (contracting entity); hosting region: EU ([eu-central-1, Frankfurt – to be confirmed])	Processing within the EU; for any third-country support access: EU SCCs / AWS Data Processing Addendum; Amazon.com Inc. is certified under the EU-US Data Privacy Framework
[Stripe Payments Europe, Ltd.]	[Payment processing for subscription billing – to be confirmed]	[Ireland; sub-processing partly in the USA]	[EU SCCs / EU-US Data Privacy Framework]

Note on AWS Bedrock: justtrack’s AI-supported features run on AWS Bedrock within justtrack’s AWS environment. Customer Personal Data flows through Bedrock only once AI features are activated. This will be implemented as an expansion of the AWS entry above and notified in advance in accordance with the DPA.
